"I hired Betsy Muller to serve as a keynote presenter for our 2013 two-day conference. Betsy's professionalism and helpful manner put me at ease so I could focus on other details as the conference took place. From start to finish, she cared about my attendees and delivered two programs that entertained, motivated and inspired. If you are looking for an enthusiastic and knowledgeable speaker, you can trust Betsy to deliver."

"An individual diagnosed with breast cancer can have an extremely difficult journey, often being very emotional and physically draining. Your instructions on Emotional Freedom Techniques were amazing in how it assisted each individual in lowering their stress levels. The group really enjoyed your help and I am hopeful that you will consider coming another time to help us further on this journey that none of these women wanted to begin."
